

Where the good life lives on.

Pinnacle
Village

A Lifestyle Village by  CHR

The future of aged care is coming to Tasmania.

Three levels of care and community.

Independent living

We are offering a vibrant, community-focused lifestyle for Tasmanians seeking to make the most of their 'third age'. This is a time when we're liberated from the pressures of work, young families and finances.

You'll be welcomed into a thriving social scene with an on-site community centre. Find space for self-care and care towards others, all while creating new memories and embarking on new adventures.

Assisted living

We are excited to introduce assisted living to Tasmania. Representing the perfect balance of independence and support, you'll be empowered to live life on your own terms while enjoying first-class hospitality and care.

Our one and two bedroom fully serviced apartments provide packages for in-house laundry, meals at the on-site restaurant, and other flexible options. They're ideal for those who need assistance with daily tasks or are looking for hotel-like convenience.

Residential aged care

Our residential aged care facility provides the same high-end hospitality, as well as 24/7 care within a warm, home-like environment.

Following the model recommended by the Aged Care Royal Commission, the facility has five households, each with 15 private rooms and shared dining, lounge and activity spaces.

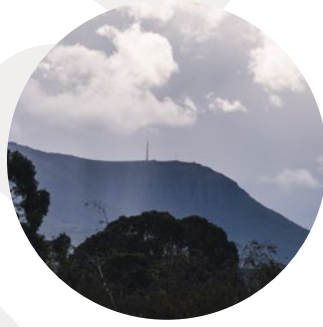

Residents will benefit from regular bus trips to cafés and restaurants, fitness classes, musical therapy, virtual reality experiences and pet visits.

For those living with dementia, a dedicated house offers secure outdoor spaces, wayfinding and looped pathways for safe exploration.

High-end hospitality, and 24/7 care within a warm, home-like environment.

A full-service precinct in the heart of Kingston

At Pinnacle Village, we offer personalised support for every stage of life. This means a seamless blend of independent living, assisted living and residential aged care.

We believe in creating strong connections within and outside the village. Our vibrant community hub features a café, hairdresser and consultation rooms. Residents will enjoy high-quality dining options in our onsite café and restaurant, as well as access to a gym, library and landscaped courtyards.
